profile

A sustainable art & homewares business, making unique hand crafted designs inspired by the great British countryside. Based on a Dartmoor farm, work is posted from the middle of nowhere to reach your somewhere. Sustainability is at the core of the business & The Dartmoor Artist is a member of the Eco Alliance for packaging.

about

Founded in 2018, Sarah taught herself to paint during her recovery from spinal surgery. She built the business from the living room floor up. Everything begins with hand drawn designs and foraged farm finds. Using the hedgerows and seasonality of what is growing on the farm, her work is a nod to the beauty of English countryside and positive mental health.
